

Connecting Community, Technology, and Opportunity in Greater Madison

Bayview Apartments and Townhouses

SupraNet provided Bayview with a complete Internet solution, enabling residents to connect instantly without needing to purchase or install additional equipment.

Fiber Optic Connections

- ✓ 48-unit building
- ✓ 25-unit building
- ✓ 57 townhouses
- ✓ community center
- ✓ fiber ring connecting all buildings

Wi-Fi Infrastructure

- ✓ 130 Wi-Fi access points (APs) in units
- ✓ 12 APs in common areas

Alexis London
Executive Director at Bayview Foundation

“As we listened to residents voice their needs and concerns, it became clear that reliable Internet access wasn’t just a preference—it was a necessity.”

“The support provided to our residents by SupraNet has been exceptional. Many of our residents are experiencing Wi-Fi for the first time, allowing them to connect with the world and communicate in ways they couldn’t before. Elders can now see loved ones overseas via Zoom, children can complete schoolwork and access educational content, and adults can enjoy online entertainment.”

Xong Vang
Bayview Housing Coordinator
